0800 hrs **From the President** : As you may or may not know, in the past year I have been in contact with Congresswoman Mimi Walters about the " Wind Fall Act" for Social Security Benefits. Our payments are reduced about 40% since we have a government based retirement. The following is a message sent to me by D.K. Smith.

AARP President Jeannine English has urged the Ways and Means Committee to end the Social Security provision known as " The Windfall Elimination Provision", or WEP, which reduces benefits for workers who have both state and private-sector jobs. Under HR711, sponsored by Chairman Kevin Brady (R-Texas), workers who are already retired may receive a rebate, and those still working will get benefits based on earnings and contributions, like all other workers.

Call 844-259-9352 toll free and ask your lawmakers to co-sponsor HR711. The given phone number will get you your Congressman or woman. Thank you.
